

MEDEX

The Total Solution to Rising Workers' Compensation Costs

The MEDEX Medical Provider Network (MPN) is an exclusive, specialized network of medical providers experienced in Workers' Compensation. Using our MPN gives you more control over your Workers' Compensation claims by directing your injured employees to the reputable provider in our network. This ensures quality care by providers skilled in treating workers' comp cases along with the treatment that helps return your employee to work as soon as possible.

Program Benefits

- Over 3,900 credentialed providers statewide
- All participating providers are nominated by employer clients and/or claims administrators
- The network is carefully managed through weekly provider updates, monthly provider rosters and quarterly provider communication

Medical Provider Network

- MEDEX produces feedback on provider performance
- Direct contract with all providers with 100% reimbursement per California fee schedule
- Employer holds control of the first medical visit and is allowed lifetime medical containment within a provider network
- Our MPN integrates seamlessly into your existing managed care programs including bill review, utilization review, and nurse case management
- Our MPN is utilized by many Insurance Carriers, Self Insured Groups, Permissibly Self Insured Employers, and Third Party Administrators
