

MPN

DESCRIPTION OF SERVICE

This California-approved network of physicians gives employers exclusive access to qualified, vetted medical providers to treat their employees' work injuries. While an MPN doesn't maximize the period of employer medical control like an HCO, MPNs contain care within a trusted network to reduce delays, over-treatment, and the risk of litigation. Ideal for employers seeking choice in quality network providers and easy-to-implement claim containment.

STUDIES/STATISTICS

- Providers in the MEDEX Advantage MPN: 8,289 (excluding ancillary providers)
- Providers in the MEDEX Advantage Plus MPN: 9,580 (excluding ancillary providers)
- Total number of provider specialties in the MPN: 53
- DWC-suspended providers ever found active in MEDEX networks: 0
- Demonstrating that MEDEX network providers routinely submit complete, appropriate treatment requests, the certification rate in UR for peer-reviewed requests are:
 - MEDEX MPN Providers: 61%
 - Out-of-network Providers: 38%

MEDEX HIGHLIGHTS & DIFFERENTIATORS

- A curated off-the-shelf network of experienced, outcome-focused providers who employers can trust with their workers' compensation claims
- Custom MPN options to tailor your network to the needs of your workforce and maximize containment opportunities, with expert guidance to keep the network compliant
- Unmatched network integrity through unique partnership and direct contracts with network providers (an advantage over the leased and relabeled PPO networks offered by competitors)
- Targeted super-specialty providers for your workforce's needs and specialized contract terms to incentivize providers in scarce specialties
- Customized implementation and account management, including individual worksite posters, MPN notification letters, transfer of care assistance, instructions for employers' Human Resources departments, claims and defense attorney team training, and ongoing guidance for effective use and tailoring of your MPN
- Daily updates to the public provider listing site for optimized access
- Close monitoring of client feedback and provider performance for provider coaching, training, and if necessary, termination from the network within 30 days (with immediate suspension from the online lookup)
- Concierge-level Medical Access Assistant line to help injured workers and claims teams to select ideal providers and schedule priority appointments
- Optional customized integration with our specialized medical case management, UR, and bill review yields maximum control
